

SCOOP4C Newsletter

Dear stakeholder community,

The new EU regulation proposal on a 'Single Digital Gateway' is the first legal framework making full use of the once-only principle. The SCOOP4C project fully supports this development and will continue to work hard to make once-only enabling legal frameworks a reality.

Additionally, we are excited about the success of our second workshop in Tallinn, Estonia. Thank you to all that participated for the insightful discussions.

If you have any questions about the once-only principle or our project, please feel free to contact us.

See you soon,

The SCOOP4C project team

Second SCOOP4C workshop at Tallinn e-Governance Conference 2017

Our second workshop took place at the e-Governance Conference in Tallinn on 31st May 2017. Click below to read our summary and to see the workshop presentations.

Proposed new EU Single Digital Gateway to rely on once-only principle

The European Commission proposed to establish a Single Digital Gateway that shall serve as a single point of access to public services provided by EU Member States. The new Gateway will rely heavily on the

once-only principle (OOP).
