

The Once-Only Principle and the Stakeholder Community for Once-Only Principle: Reducing Administrative Burden for Citizens

www.scoop4c.eu

Stakeholder Workshop
Sofia, 22nd February 2018

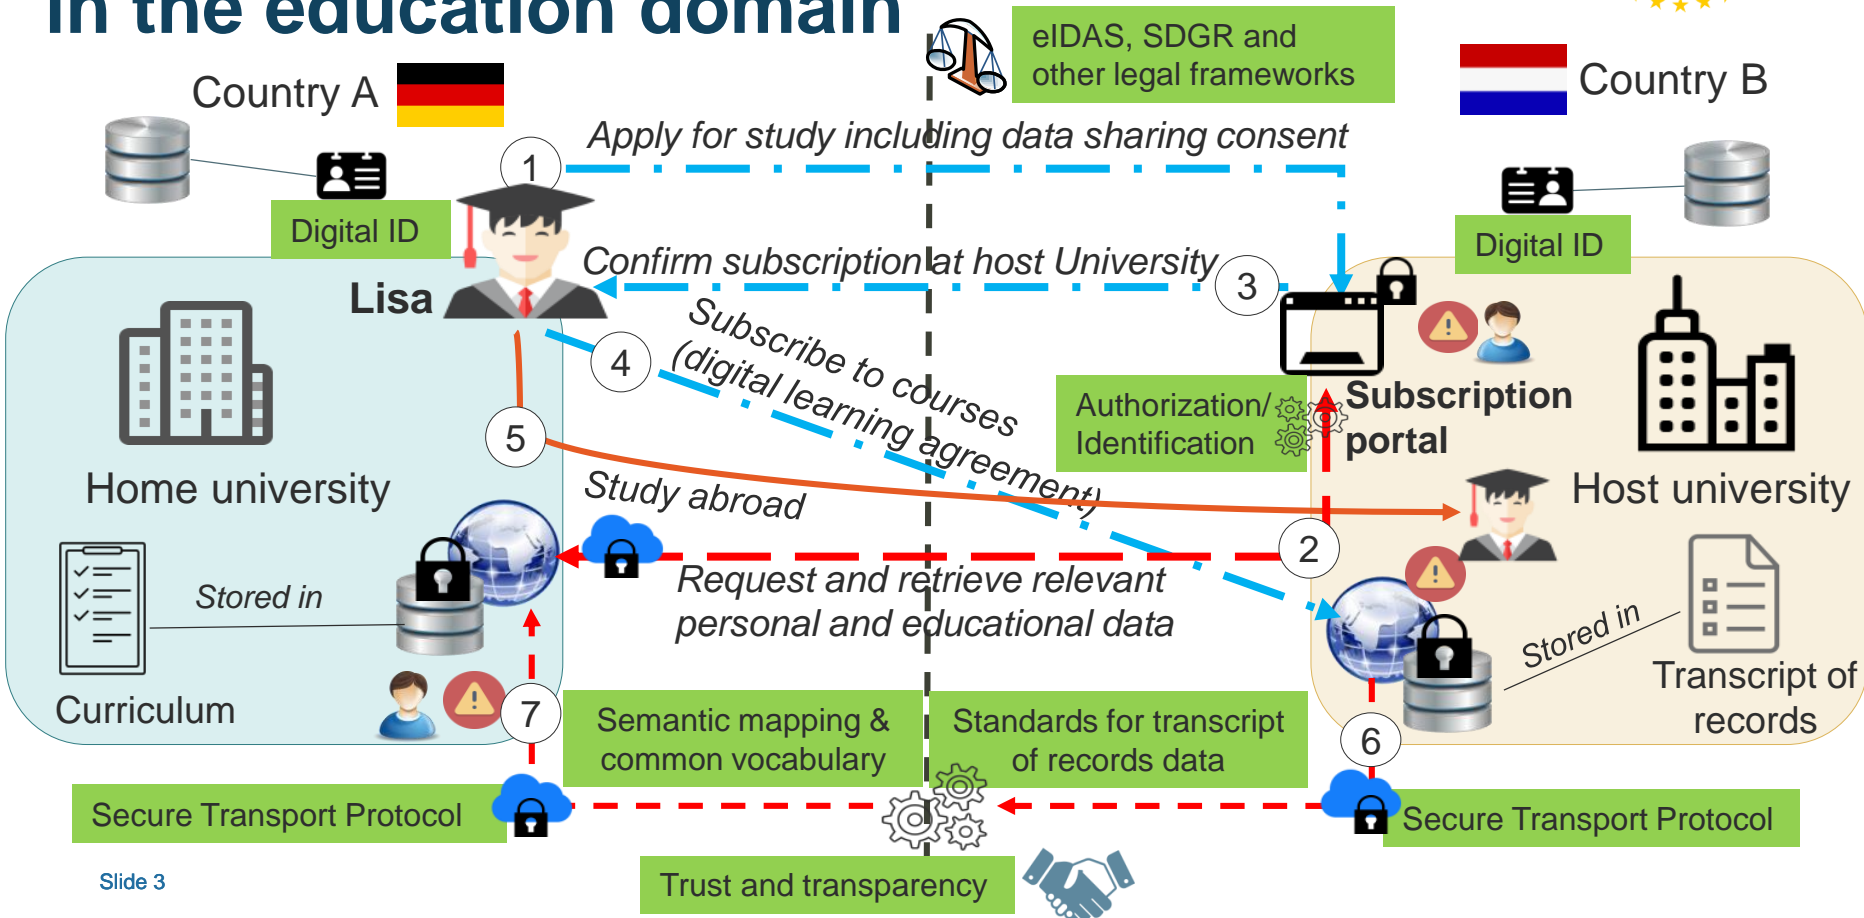

Maria A. Wimmer
Project Coordinator

UNIVERSITÄT
KOBLENZ · LANDAU

Future cross-border OOP scenario in the Educational Domain

A future scenario of cross-border OOP in the education domain

Group Discussion (ca. 30 Minutes)

Along the discussion...

... address the following aspects

Group 1 - simplification through OOP:

How much is Bulgaria ready for such a scenario?

What enablers are in place?

What barriers do exist?

What other such scenarios to simplify the administrative procedures in education would you see?

How well do OOP and data protection regulations cope with each other?

Group 2 – Privacy, trust & transparency:

What expectations do you have regarding data protection, privacy, transparency and trust in OOP cases?

What types of resistance might exist in the scenario by students and by public servants at HEIs?

What do you see as the biggest concerns regarding data sharing and reuse in the scenario?

Group 3 – Benefits and impact:

What benefits would such scenarios create for the stakeholders (students, public servants at HEIs or governments)?

What would you expect to be the wider (societal) impacts of such a scenario?

Plenary round

Reports from the group discussions

Report Group 1

Simplification through OOP

Future areas of actions

Report Group 2

Privacy, trust & transparency

Future areas of actions

Report Group 3

Benefits and impacts

Future areas of actions

Thank you for your attention!
