SCOOP4C Newsletter No. 17

Dear community member,

On July 1st 2018, Austria took over the presidency of the Council of the European Union from Bulgaria. Austria is the final country of the trio partners Estonia-Bulgaria-Austria whose overall programme focused on job growth, European security, and digitalisation. Here at SCOOP4C we especially welcome the achievements reached concerning the Tallinn Declaration and the Single Digital Gateway Regulation which pave the way for the implementation of the once-only principle on a cross-border pan-European scale.

As summer time progresses, we also started to work on our final research results like our roadmap of actions and policy recommendations for the implementation of the once-only principle. We would like to involve you in this process and will be holding a workshop at EGOV-CeDEM-EPART 2018 in Krems. And you are also invited to join us at our [conference in Vienna](#) in September.

If you have any further questions concerning the once-only principle or the SCOOP4C project, please do not hesitate to reach out to us.

Best wishes,

The SCOOP4C project team

Join our workshop at eGov-CeDEM-ePart 2018 in Austria

As part of the conference (Sept 3-5), SCOOP4C will hold a workshop roadmapping the once-only principle. Participants will help develop a roadmap of actions and policy recommendations for the future of once-only - join us!
